

HIS 6934-6 Seminar: The Global Cold War

Dr. Mike Creswell

T 6 to 8.45pm

Bellamy 404

This graduate seminar examines how the Cold War played out in regions of the world outside of the United States, Russia, and Europe. Readings focused on countries in Africa, Asia, and Latin America will show how their interests mirrored as well as differed from those of the two superpowers. Students are expected to produce a research paper at the end of the seminar.
